Rihzyn

Project Development & IT Program Management
Plan. Govern. Deliver mission-ready systems.

Client Outcomes

- Reduced schedule slippage through EVM-driven controls and proactive risk management.
- Accelerated ATO timelines via early compliance planning and IV&V coordination.
- Higher release cadence using Agile governance with clear stage-gates and KPIs.

What We Deliver

- **Program/Portfolio Management (PMO):** Governance, controls, dashboards, benefits realization, risk & dependency management.
- **Project Development & Delivery:** Scope/WBS, backlog & roadmap, release planning, vendor coordination, change control.
- **Acquisition & Planning Support:** Requirements, alternatives analysis, ROM/BOE, IGCE support, SOW/PWS inputs.
- **Risk, Compliance & Quality:** Risk registers, mitigation plans, IV&V alignment, test strategy, configuration management.
- **Stakeholder & Communications:** Executive briefs, cadence management, cross-functional facilitation, training & adoption.

Differentiators

- Mission-centric delivery focused on operational outcomes and user adoption.
